

# CYBERRAKSHAK 1930

1-MINUTE (60s) HACKATHON VIDEO PITCH — 30s FRAUD + 30s DIGITAL ARREST

Strict 60 Seconds | Dot-to-Dot Screen Actions + Spoken Narration | Live at [cybersafe-azure.vercel.app](https://cybersafe-azure.vercel.app)

0:00 – 0:30 PART 1: FINANCIAL THEFT & 2-HOUR GOLDEN WINDOW

[30 SECONDS]

| EXACT SCREEN ACTION (SHOW THIS)                                                                                                                    | EXACT SPOKEN NARRATION (SAY THIS)                                                                                                                                                   |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Start on Home screen. Show top header 'Financial Cyber Theft' flow selected. Tap 'Citizen Demo Login' to show instant account link.             | <b>When an Indian citizen loses money to cyber theft, they panic. CyberRakshak 1930 is the dual-engine citizen command that turns that panic into immediate statutory recovery.</b> |
| 2. Paste bank SMS: 'Rs 85,500 debited via UPI Ref 312345678901 to ramesh.traders@okaxis'. Click 'Run AI Audit'.                                    | Step 1: Intake. We paste the raw debit SMS. Our on-device parser extracts the 12-digit UTR, amount of 85,500 rupees, and suspect UPI in milliseconds.                               |
| 3. Page moves to Step 2 (Audit). Point cursor to Golden 2-Hour Recovery badge & RBI Zero-Liability card. Click 'Continue to Action'.               | Step 2: Audit. The engine activates the Golden 2-Hour Recovery Window and checks RBI Zero-Liability rules under DPDP Act privacy safeguards.                                        |
| 4. Page moves to Step 3 (Action). Click 'Read Teleprompter Script' then click 'Email Bank Now' to show Gmail Webmail & Section 91 BNSS freeze PDF. | <b>Step 3: Action. The citizen gets a live 1930 helpline teleprompter script, 1-tap Gmail freeze requisition under Section 91 BNSS, and instant WhatsApp evidence sharing!</b>      |

**PART 1 OUTCOME:** 12-Digit UTR parsed -> Golden Window activated -> Sec 91 BNSS Notice dispatched in under 30s.

0:30 – 1:00 PART 2: DIGITAL ARREST EXTORTION DEFENSE

[30 SECONDS]

| EXACT SCREEN ACTION (SHOW THIS)                                                                                                                                     | EXACT SPOKEN NARRATION (SAY THIS)                                                                                                                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Switch top toggle to 'Extortion & Digital Arrest'. Select CBI impersonation and enter caller ID + extortion demand of Rs 2,50,000.                               | <b>Now Part 2: The terrifying epidemic of Digital Arrest. Scammers impersonate police on video calls demanding verification bonds.</b>                                            |
| 2. Point to the top-right Accessibility Panel: Switch language to Telugu ( \$ F 2 A A ) or Hindi ( 9 ? ( M & @ ) ). Show translate dynamically.                     | We built full accessibility in 6 regional languages so any citizen can understand their statutory rights in their mother tongue.                                                  |
| 3. Click 'Audit Extortion Threat'. Step 2 shows the Legal Fact Check Matrix: 'Digital Arrest does NOT exist under Indian Law'. Click 'Listen to Fact Check Aloud'.  | Step 2: Reality Check. Our legal engine myth-busts the extortion in real time, proving through Supreme Court law that digital arrest is 100% illegal.                             |
| 4. Move to Step 3 Action: Show 'DoT Chakshu SIM Block' button, 'Download FIR PDF (BNS 204 & 308)', 'Download Sec 63 BSA Certificate' and official CBI/ED helplines. | <b>Step 3: Defense. 1-tap DoT Chakshu SIM blocking, instant BNS 204/308 FIR complaint PDF, cryptographic Section 63 BSA certificate, and verified CBI control room directory.</b> |
| 5. Show persistent footer: DPDP Compliant • On-Device Cryptographic Hashing. Smile and conclude.                                                                    | <b>CyberRakshak 1930: Protecting India's digital citizens with real law, real tech, and zero friction. Thank you!</b>                                                             |

**PART 2 OUTCOME:** Extortion debunked -> DoT SIM blocked -> BNS 204/308 FIR + Sec 63 BSA Certificate generated.

BONUS RAPID-FIRE JUDGE Q&A (1-LINERS)

[CHEAT SHEET]

| EXACT SCREEN ACTION (SHOW THIS)                                | EXACT SPOKEN NARRATION (SAY THIS)                                                                                                                                |
|----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Q: How do you prevent fraudulent data tampering?               | Every evidence screenshot and note generates an on-device SHA-256 hash certified under Section 63(4) Bharatiya Sakshya Adhiniyam 2023.                           |
| Q: How does bank email freeze work across rural/private banks? | We maintain a comprehensive central directory of nodal fraud desk emails for SBI, HDFC, ICICI, Paytm, and unlisted banks with pre-formatted Sec 91 BNSS notices. |
| Q: Why two distinct flows?                                     | Financial fraud requires speed to lock mule accounts; Digital arrest requires psychological legal reassurance, SIM blocking, and extortion prosecution.          |
